NAZIS ATTACKS SLOW DOWN

Loss Of Two More Destroyers Reveals Pacific Battle Fury

By JOSEPH A. BORS
(U. S. Staff Correspondent)
WASHINGTON, Oct. 22.—Loss of two more U. S. destroyers and damage to two Japanese warships today emphasized the mounting fury of the Solomons' battle as the enemy disclosed new aerial "decoy" tactics apparently designed to lure protecting American planes from vital Guadalcanal airfield.

Employment of new aerial strategy was revealed in the Navy's latest communiqué, which stated that 30 "Zero" fighters preceded by one hour a new bombing raid on the U. S. airfield, but the ruse failed and nine more Jap planes were destroyed.

The same communiqué stated that the U. S. destroyers Meredith and O'Brien were lost as the result of enemy action in the Solomons recently and that American planes damaged a Jap destroyer and cruiser in action on October 19-20.

Believe Personnel Rescued
"The report of casualties has not yet been received, but it is believed that all personnel of the O'Brien and many of the personnel of the Meredith were rescued," the Navy said.

Meanwhile, the Navy reported that U. S. planes have continued to stall the 11-day-old Japanese offensive to recapture Guadalcanal.

"During the late morning (Oct. 20) approximately 30 'Zero' fighters flew over the airfield," the communiqué said. "They were followed, about an hour later, by 16 enemy bombers with fighter escorts. During these attacks two enemy bombers and seven 'Zeros' were shot down. Two U. S. fighters were lost."

Use Zeros as Bait
Aerial strategists asserted that this apparently new tactic of using "Zero" fighter planes as "bait" to

Holiday Furlough Hopes Of Soldiers Are Blasted

(International News Service)
WASHINGTON, Oct. 22.—Secretary of War Henry L. Stimson today blasted hopes of men in training in the armed forces for Thanksgiving and Christmas furloughs.

Necessity of building the army requires that training schedules and induction procedures be continued through those holidays, Stimson said at his press conference.

The delay in induction or suspension of training in war time, he said, is inconsistent and contrary to the basic requirements of building a well-trained army.

Only exception will be on Nov. 26, Thanksgiving Day, and Dec. 24 and 25. On those dates, registrants will not be ordered to recruiting and induction stations for examination and induction, and men previously inducted and at home on the 14-day furlough period, and who nor day furlough would be ordered to reception centers on those days, will have the period extended by one or two days to permit them to spend the holiday at home.

The policy of granting furloughs and passes between Thanksgiving and New Year's Day will be greatly restricted, Stimson said.

New Air Raids Made In Egypt

(International News Service)
CAIRO, Oct. 22.—Allied bombers have carried out another successful series of raids on Axis airfields and concentration points in Libya and Egypt and damaged an enemy transport off the Egyptian coast, a middle east command communiqué disclosed today.

Bombers and fighters attacked the transport between El Daba and Sidi Hanish and then pounded the Axis landing field at El Daba.

Other squadrons raided Tobruk, Sollum and Fort Capuzzo in Libya, and the landing field at El Gubbli while other formations strafed enemy transport columns on the Tobruk-Bardia highway.

Japanese Proclamations Intimate Punishment For "Captured Bombers" Of Tokio

By HORACE M. COATS
(U. S. Staff Correspondent)
WASHINGTON, Oct. 22.—

Secretary of War Stimson today said there is a possibility that some of the American airmen who participated in the raid on Tokyo on April 18 may have been captured by the Japanese in Chinese territory.

Stimson made this comment in response to a question on recent Japanese propaganda broadcasts that captured American flyers would be punished.

The secretary denied Tokyo's charges that American flyers concentrated on non-military objectives including schools and hospitals.

Bomb Military Objectives
"Our flyers who bombed Tokyo were instructed to bomb only military objectives, and they reported they did so, and with remarkable accuracy," Stimson said.

The secretary added that he was "loath to believe" that Japan would violate the convention of Geneva regulations covering the humane treatment of military prisoners.

"No American planes were shot down by the Japanese over Japan," Stimson added. "I understand that some planes encountered bad weather and were thrown off their course. One landed in Siberia and the crew has been interned since that time."

"Several other crews were forced to land in China because of a gasoline shortage and very few are carried as missing."

"It is therefore possible that some may have landed in Japanese dominated territories or were captured. I understand the names of four men mentioned by Tokyo fairly well correspond to four flyers who were on that raid."

The Japanese radio said that four American airmen had been captured.

Cache Of Guns Found On Farm Of German Alien

(International News Service)
NEWARK, N. J., Oct. 22.—Carrying out simultaneous raids on 73 homes in 39 New Jersey communities, the FBI today revealed discovery of a cache of guns and ammunition on a South Jersey farm owned by a German alien.

This German, who "could offer no explanation" of his possession of six guns and 500 rounds of ammunition, and several other German and Italian aliens were arrested.

E. E. Conroy, FBI chief in New Jersey, did not reveal the number of aliens seized or identity of any of those taken into custody.

The raids were carried out only a few hours after 24 leaders of the German-American Bund had been sentenced to maximum sentences of five years in New York for draft law evasion.

No Comment On Liberia Report

(International News Service)
WASHINGTON, Oct. 22.—Because it involved American troop movement, Secretary of War Stimson today declined to comment on recent reports that American troops now are stationed in Liberia on the west coast of Africa.

The question regarding American troops in Liberia was put to Stimson at his weekly press conference and he dismissed it with a curt answer that "except in very exceptional cases" no comment ever is made on movement of U. S. forces.

WASHINGTON, Oct. 22.—Secretary of War Stimson said today that delay in passage of the law to draft 18-19-year-old youths would interfere with War Department plans now under way to release older men unfit for combat duty.

In response to a question at his weekly press conference, Stimson said that as far back as last January the Army began shifting men unfit for combat to service units.

"We also have plans for resurveying older men in the Army and two factors are taken into consideration—their physical condition and technical qualifications," the Secretary said.

New Premier Is Named For Canada

Hepburn Quits Post Suddenly

General Shakeup In Government Personnel And Policies Possible

CONAUT IS NAMED AS NEW PREMIER

(International News Service)
TORONTO, Ont., Oct. 22.—Canadians today were awaiting with interest an announcement by their new premier, Attorney General Gordon Conant, which may signal a general shake-up in government personnel and policies.

Premier Conant, who will continue to hold his former office as attorney general, was sworn into office last night by Lieut. Gov. Albert Matthews following the surprise resignation of Premier Mitchell F. Hepburn who has been in office for two consecutive terms since June, 1934.

Hit Like Bombshell

The resignation, which hit Parliament like a bombshell a year before Liberal Hepburn's term was to have expired, today still lacked a satisfactory explanation other than the fact that he was a bitter critic of Prime Minister W. L. Mackenzie King and other dominion officials.

Hint of a shake-up in the organization and policies established by Premier Hepburn was seen in the statement issued by his successor a few minutes after he was inducted into office when he said that "the entire personnel of the new government will be announced in a few days," adding that "other pronouncements of plans for the future may be considered advisable will be made shortly thereafter."

"You can see for yourself it will be pretty well interfered with," Stimson added. "We are working on a time schedule and every day counts."

Stimson declined to comment on the possibility that men between 35 and 40 also would be included in the proposed survey.

The secretary added that the survey eventually would be extended to older men who already are overseas with the American armed forces.

WEATHER FORCES NAZI ASSAULTS TO SLOW DOWN

(Continued From Page One)

winds howled through the streets, relaxed the fury of their assaults against Russian factories on three sectors.

Attacks Repulsed
Each assault by the Germans was soundly repulsed by the Red army defenders, reinforced by shock troops rushed into the city from across the Volga river.

A height on the steppes near Stalingrad also was recaptured from the Germans and all counter-attacks to regain the position were repulsed.

The noon communiqué said that Soviet warships operating in the Black sea had sunk four more Axis vessels, bringing to eight the total reported sent to the bottom within 24 hours. One was a Rumanian destroyer, four were transports apparently carrying Nazi reinforcements to the west Caucasus and three were auxiliary vessels. The midnight communiqué said the destroyer and three transports totaling 15,000 tons had been sunk, while the noon communiqué account for one transport and the auxiliary ships aggregating 13,000 tons.

The high command said that only small groups of German forces were engaged during the night in the Mordok area of the mid-Caucasus.

Artillery Duels
On the northwestern front, it was added, artillery duels were fought and a number of enemy guns destroyed.

Pravda, Communist newspaper said that the Germans had lost 4,000 men in a 10-day battle in a narrow sector of the Caucasus mountains. The newspaper said that the Germans were striving desperately to break through to the Black sea coast southeast of the fallen naval base of Novorossiisk.

Soviet reports said that their lines were holding firm throughout the Volga-Caucasus front and that in many sectors the Russians had seized the initiative.

Front line dispatches accounted for 1,250 enemy dead in Wednesday's fighting, and indicated that the heaviest actions were in the Mordok area where the German push on the Grozny oil fields has been effectively stalled for weeks.

On this sector enemy dead totaled 1,100. Another 150 casualties were listed in the fighting in the Stalingrad factory district.

Enemy Radio Gives Names
The enemy radio gave their names as Second Lieut. William J. Farrow, 23, Burlington, S. C.; Second Lieut. Dean E. Holman, 27, of Dallas, Tex.; Corp. Jacob D. De Shazer, 29 of Oregon, and Sergeant Harold Spatz, 20, of Kansas.

These names correspond closely to some in the list of 80 officers and non-commissioned officers who were decorated for their part in the raid on Tokyo and other Japanese cities.

Stimson stated that the United States intends to abide by the Geneva convention in the treatment of prisoners and added that "we expect our enemies to do the same."

The secretary said that the American Red Cross has been instructed to make every effort to see that "the rules of humanity are carried out."

At the time of the raid on Tokyo, war department officials reported that the American bombers loaded military installations and munitions factories in the Tokyo area.

Following return of some of the airmen, they reported being within sight of the imperial palace in Tokyo but carefully avoided dropping bombs there on orders of Brig. Gen. James H. Doolittle, leader of the bombing squadron.

Little, everyday things count just as much as big ones in today's great struggle. While all of us think twice about taking a pleasure trip to California, many just do not stop to consider the present transportation problem when it comes to going downtown on a bus. We are not asked to stop doing this, but merely to time our use of busses so as not to crowd them any more than is necessary. Persons going to and from work have priority, and those using them for any less necessary purpose can cooperate by riding them in the middle of the morning or afternoon if they can possibly arrange it. P. S., that you can ride sitting down, too.

There is a restaurant here which has a sign displayed "Private Dining Rooms." The sign has been there for about two years and has never been changed to think they mean it. Having never made noise amounting to a din in a room especially designed for that purpose, we can only imagine what one might be like. For our part, we'll just go on dining in public—at football games.

Observers saw in the spokesman's declaration that this may be the beginning of the end a possibility that the Japs would be routed from the Kokoda track in the same manner that they were forced back into the sea or annihilated in the Milne Bay area at the southeastern tip of New Guinea.

Air Forces Strike
Allied air forces continued to strike heavy blows against Japanese bases throughout the southwest Pacific.

A smashing new assault was made on both the harbor area and an airfield at Rabaul, New Britain island, by American flying fortresses. The harbor assault was directed against anchored Jap ships and aircraft, results of the attack could not be observed because of poor visibility the fortress crews said that many fires broke out after the claps of heavy explosions. MOSCOW, Oct. 22.—Tass, official Soviet news agency, said today that it was reported from Copenhagen that the recent accident in which 72-year-old King Christian X of Denmark was injured when he fell from his horse.

LONDON, Oct. 22.—Nine persons were reported killed today when a Nazi plane bombed a village in East Anglia in daylight.

LONDON, Oct. 22.—Grand Admiral Eric Raeder, commander-in-chief of the German fleet, is expected to resign his post soon, a dispatch to the Daily Sketch said today.

Neutral correspondents in Berlin were said to believe that Raeder will step out shortly because of recent notices of instruction from the German propaganda ministry.

LONDON, Oct. 22.—The condition of Denmark's king, Christian X, has taken a turn for the worse, the Copenhagen radio reported today.

The broadcast, picked up by Reuters, said that the 72-year-old monarch occasionally lapsed into unconsciousness.

Yesterday it was revealed that the king, injured in a fall from his horse, was running a temperature.

LONDON, Oct. 22.—Nine enemy fighter planes were shot down yesterday during the American bomber raid on the Axis submarine base of Lorient, on the northern coast of France, it was announced today.

Previous announcements made no mention of the number of enemy planes downed, but said that three Flying Fortresses had been lost.

LONDON, Oct. 22.—Movie Star Edward G. Robinson arrived here today ready to embark on a tour of entertaining American troops in Britain and northern Ireland.

NEW RIDER TO BILL FOR 18-19 DRAFT PLAN IS NOW THREATENED

(Continued From Page One)

considering a compromise plan under which he would withdraw the proposal in exchange for a Senate agreement for early consideration of the Sheppard bill, which also prohibits sale of liquor in army camps and adjacent territory.

Oppose Compromise
Senate foes of prohibition who regard the Lee amendment as the entering wedge in a fight for wartime prohibition, were reported to be ready to vigorously oppose the compromise.

Secretary of War Stimson strongly opposed the Lee amendment in a letter to Senator Reynolds (D, N. C.), in which he declared that it would impair the army's plan of promoting temperance. The army permits sale of 3.2 beer in camps at certain hours.

Senator La Follette (R, Wis.), fighting the Lee amendment, declared that high ranking officials in charge of recreation and welfare activities in the army and navy vigorously oppose prohibition.

"I have been informed that Raymond Fosdick, who was in charge of training camp activities during World War No. 1, says that conditions now compare favorably with conditions at that time," said La Follette. "He believes that sale of beer in post exchanges has reduced the demand for hard liquor."

Officers Have Power
"Many people do not realize that every commanding officer has power to control the situation, both within and without military reservations. He can place any locality out of bounds and soldiers can be prevented from visiting it."

"If the Lee amendment passes we will have all the evils of prohibition, with commercial bootlegging, revived."

Senator Bilbo (D, Miss.), supporting the Lee amendment, answered the assertions of the war department.

"Both the war and navy departments have said they could clear up the conditions around camps, but they aren't doing anything," said Bilbo. "We are not seeking national prohibition but are aiming at a cleanup of conditions which are extremely deleterious to the health of soldiers and sailors."

Bilbo agreed with the contention of Secretary Stimson that the amendment would force drying up of many large metropolitan centers.

"He said that Washington, the national capital, would be dried up because of its proximity to army camps, and probably also the city of Baltimore. Stimson said that New York, Chicago, Los Angeles and San Francisco would be affected by the Lee amendment and the army would have to enforce prohibition in those cities."

LOSS OF TWO MORE DESTROYERS REVEALS PACIFIC BATTLE FURY

(Continued From Page One)

draw American pursuit planes on fruitless hunts, was prompted by heavy losses suffered to date by the enemy in raids on Guadalcanal.

Since fighter planes carry small gasoline supplies, it was presumed that the enemy hoped to catch the American planes grounded for refueling when the Jap bombers came over an hour later.

Success of American aerial defense tactics to date was indicated by the fact that more than 95 Jap planes have been destroyed since the present battle began October 13. The total Jap plane losses in the entire Solomon campaign now stands at more than 352.

Situation Critical
But the situation in the Solomons remained critical and the outcome undecided, with large numbers of enemy ships and troops still awaiting the signal to strike in force in another attempt to oust the Americans from Guadalcanal.

Large numbers of enemy ships continue to be sighted in the northern Solomons and small units have been located and attacked in the southern Solomons," the Navy said. "There has been little recent troop activity on Guadalcanal and our aircraft are continuing to bomb the enemy positions."

This concentration of warships and auxiliaries has been bombed repeatedly by planes under the command of Gen. Douglas MacArthur in Australia, and heavy damage is believed to have been done.

To Relieve Bad Cough In a Hurry, Mix This at Home

Swift Acting, and Saves Big Money. Easily Mixed.

You'll be surprised how quickly and easily you can relieve coughs due to colds, when you try this splendid recipe, mixed in your own kitchen. It gives you about four times as much cough syrup for your money, and you'll find it wonderful for real relief.

Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking needed—it's no trouble at all. (You can use corn syrup or liquid honey, instead of sugar syrup.) Then put 2½ ounces of Pinex (obtained

from any drugist) into a pint bottle. Add your syrup and you have a full pint of medicine that will amaze you by its quick action. It never spoils, lasts a family a long time, and tastes fine—children love it.

This simple mixture takes right hold of a cough. For real results, you've never seen anything better. It loosens the phlegm, soothes the irritated membranes, and eases the soreness. Pinex is a special compound of proven ingredients, in concentrated form, well-known for its prompt action in coughs and bronchial irritations. Money refunded if it doesn't please you in every way.

B. P. W. CLUB GUESTS AT EVENING PARTY

With thoughts of work and routine affairs being dropped, members of the Business and Professional Women's club numbering sixty-five and several special guests joined at the cottage of one of the number, Mrs. R. L. Boyd on Chapin road, Wednesday evening, for an informal party.

Miss Bess Gailey, chairman of the Rae Murihead camp, was in charge, and she was ably assisted by Dr. Mildred Rogers, Helen Hinkson and Nancy Bechtol.

Featuring was a novel "food auction" with canned and home baked goods being sold to one another, the proceeds to be used toward repairs on the club cottage, known as the Rae Murihead at Lakewood. This was entertainingly put on by president Mary Bigley, Olivia Griffiths and Mary Harvard who served as the "well seasons auctioneers".

Following a round of merriment, a delicious lunch was served the assembly. The entire affair was held in an autumnal setting, the rooms being colorfully decorated.

It was announced that a large representation of the local B. P. W. club will attend the district meeting to be held in Ellwood City on Saturday.

On Wednesday, October 28 the executive board will meet in the Y. W. C. A. while on November 12, the club will hold its regular dinner meeting at The Castleton.

TRINITY WOMEN'S GUILD PLAN DINNER

Trinity Women's Guild of Trinity Episcopal church, met in the guild room of the church on Wednesday evening with president, Mrs. Howard Kley, presiding, when plans were made for their parish dinner.

The event will be held on Wednesday, November 4, in the dining room of the church.

Refreshments were served at the close of the evening by Mrs. George Richardson and her committee of aides.

On Thursday, November 19, the organization will gather in the home of Mrs. William Hewitt on Neshannock boulevard at 12:30 o'clock for a tureen dinner.

Mrs. James Cypher Honored
Prior to leaving for Provo, Utah, where they have taken up residence Mr. and Mrs. James Cypher and daughter, Marilyn were honored at the home of her parents, Mr. and Mrs. John Coughlin on Hamilton street recently, when they entertained informally for a host of guests.

Aiding with the serving of a 6 o'clock dinner, Mrs. Coughlin had her daughter, Mae and Mrs. Leyshon Coughlin. The time was spent most informally.

Another party was given in honor of the Cyphers prior to their departure, when their uncles and aunts assembled at the Coughlin residence for a similar party. On this occasion a lovely personal gift was presented to Mrs. Cypher.

Honored At Farewell

Miss Isabel Price of Beckford street, entertained at a lovely party recently, honoring her cousin, Marilyn Ann Cypher, who is moving with her family, to Provo, Utah, to reside.

The event was in the form of a farewell and for the contests featured, prizes were awarded to Carolyn Bludorn, Danny Dugan, Marilyn Cypher and Junior Jessel. At a suitable time, the little honoree was showered with an array of hankies from the group.

Lunch was served at a later hour by Mrs. Stanley Dugan, Mrs. David Matthews and Mrs. Reese Price.

WILSON-ATWELL CEREMONY IS QUIET

A quiet but impressive wedding ceremony took place Tuesday evening in the parsonage of the Highland United Presbyterian church when Dr. L. L. Ferguson, pastor united in marriage, Miss Dorothy Wilson, daughter of Mr. and Mrs. R. M. Wilson of Ridge avenue, and Sergeant William H. Atwell of Fort Knox Ky., son of Mr. and Mrs. D. R. Atwell of Crawford avenue, this city.

The vows were exchanged at 7:45 o'clock in the evening, and the single ring service was used. For her marriage, the bride was attired in a blue wool dress with black accessories, complimented with a shoulder bouquet of orchids. They were unattended.

Immediately following, the newlyweds left on a short wedding trip.

Mrs. Atwell is a graduate of Union Township high school with the class of '39. She attended New Castle Business College, and is employed at the tabulating office of the Shengango Pottery here. Sgt. Atwell is also a graduate of Union Township high school, in the year of '38, and also graduated from the armored force school at Ft. Knox. He was affiliated with the Youngstown Sheet and Tube Company before entering the U. S. armed forces.

The bridegroom will return to his duties at Ft. Knox the latter part of this week, and Mrs. Atwell for the present, will remain at her parents home here.

S. Y. W. MEMBERSHIP INFORMAL ASSEMBLY

The S. Y. W. club members were received in the home of Mrs. Thomas Boyle on Neshannock avenue, Wednesday evening, who entertained informally at their bi-weekly social event. Sharing as guests, the group had Mrs. John Wylie of Youngstown, O., Mrs. James Boughter and Mrs. Lucille Cameron.

Mrs. Boyle was in play during the early period, with lovely prizes for honors going to Mrs. Carl Gaston, Mrs. Harvey Riley and Mrs. James Boughter.

Members decided to resume their former schedule of meeting on Wednesday evenings, and again claiming the name of S. Y. W. instead of the S. Y. T.

The serving of a delicious repast brought festivities to a close.

Their next meeting on Wednesday, November 4, will be with Mrs. John Kiefer on Huron avenue.

MRS. STUART COPE HOSTESS TO N. C. T.

Mrs. Stuart Cope entertained the N. C. T. club members Wednesday evening at a tea room, 234 Highland avenue, for their regular social event.

In bridge, the prize fell to Mrs. Ernest Trehanne.

Sharing as a special guest, the hostess had her sister, Mrs. Ernest Anderson, who was also the recipient of a lovely gift.

Lunch was served at the close, and plans were made to meet again with Mrs. Albert Jones on Park avenue in two weeks.

G. N. CLUB CONDUCTS HALLOWEEN MEETING

Mrs. Joseph Donati was a charming hostess to members of the G. N. club, when they gathered for their Halloween meeting, Wednesday evening, in her Laurel boulevard home.

Card playing was the main pastime, high score prizes going to Mrs. Antoinette Francazio, Mrs. Edith Semione and Mrs. Mike DeCaprio, and the club token, also to Mrs. Antoinette Francazio.

A delicious Halloween lunch was served later in the evening on an attractively arranged table, Mrs. Edith Semione assisting the hostess.

November 4 is the date for the next meeting with Mrs. Antoinette Francazio, of Friendship street.

CAPITOL CITY WEDDING IS OF INTEREST HERE

The daughter of former residents of New Castle, Miss Jean Jordan Piller, of Washington, D. C., will become the bride of Dr. Arthur Allen Mayvott at a ceremony on Saturday, October 24, at 4 o'clock in the morning at the First Presbyterian church, of Washington. Her parents are Mr. and Mrs. Schuyler of Van Ness street, Washington.

Dr. Joseph Albert McCartney will officiate at the ceremony.

As her maid of honor, the bride will have her cousin, Miss Mary McLure Smith. Bridesmaids will all be classmates of the bride at Drexel Institute of Technology in Philadelphia. They include Miss Elizabeth Baldwin, of Chestertown, Md., Mrs. Frank Shirk, of Norfolk, Va., Miss Ellen Putney of Ridgeway, N. J., and Miss Alice Ritchie of Annville, Pa.

Dr. Mayvott will have as his best man, Cyrus Malmberg of Riverdale, Md.

A reception will follow the ceremony in the Chinese room of the Mayflower.

Dr. Mayvott, who is the son of Dr. and Mrs. Carlton H. Mayvott, of Augusta, Ga., and a graduate of Duke university, is employed at the National Bureau of Standards.

Of interest, too, is the fact that the prospective bride is named for Mr. and Mrs. Herbert Jordan, also former residents of New Castle.

V For Victory Girls

On Wednesday evening the V for Victory Girls met with Mrs. Dom Scarnati, Walnut street, for their regular meeting.

The hostess received a lovely gift, and later they enjoyed a period of card playing, with Mrs. Angelo Chilli capturing the prize for 500. Mrs. Sam Marcatullo captured the club token.

Special guests included Mrs. James Gaiione and Mrs. Lena Persi of Donora, Pa.

The hostess served a delicious lunch, Mrs. Angelo Chilli aiding in serving. Bowling was featured later in the evening.

Mrs. Sam Marcatullo will receive the club on November 4 in her home, Shady-side.

The Story Of Famous Diamonds

The
PIGOTT DIAMOND
The Stone That Returned to
Dust!

This noteworthy diamond ultimately found its way into the castle of the Ali Pasha, Khedive of Egypt, in 1818. All regarded the diamond as his wife, Vasilica, as his two greatest treasures. When he was assassinated in 1822, the aged ruler, in his last moments, ordered his men to strangle Vasilica, and crush the stone to a powder, so that his assassin should not benefit by the possession of either. The lady escaped, but the diamond did not.

LOCAL COUPLE WED IN MERCER PARSONAGE

A wedding of interest locally, took place on Saturday, October 17, the principals being Mary Ellis Floyd of New Castle, and Oscar McConahy of this city. They were united in marriage in a quiet but impressive ceremony, in the parsonage of the Methodist church in Mercer, Pa., with the Rev. John L. Buck, pastor, officiating.

Immediately following, a reception was held in their newly furnished residence at 7 North Lee avenue, New Castle. A buffet lunch was served during the evening hours, when friends and relatives called to extend congratulations to the newlyweds.

Mr. and Mrs. McConahy have dispensed with a trip for the present.

S. S. D. Club

Mrs. Vincent Merando was hostess to S. S. D. club members Wednesday evening.

Three tables of 500 were in play, high score prizes going to Mrs. Charles Merando, Mrs. Michael Scungio and Mrs. Mary Sands. Mrs. Fred Scungio captured the club token.

The birthday anniversary of Mrs. Vincent Merando was honored, and she received a lovely gift.

Later the hostess served a hot lunch, assisted by her daughter, Phyllis; a birthday cake centered the table. Special guests were Mrs. Albert Colella and Mrs. Joseph Audia, and both received a gift.

November 4 is the date for the next meeting with Mrs. Fred Scungio of 814 South Jefferson street.

PLANES CARRY VITAL SUPPLIES

A CONSTANT flow of vital supplies to the United States is being maintained by Army and Navy ferry planes from many parts of the world.

The planes bring back these choice and very necessary materials after carrying key personnel to various fighting fronts. Remarkable fact thus far: Not a pound of cargo has been lost. Look at the picture, if you have a minute:

Black mica, essential to the manufacture of some aircraft parts, has been flown from India. From the heart of China have come bristles needed by the Navy and silk for parachutes. Beetles were transported from the Fiji Islands to Honduras to check a root weevil attacking hemp at an experimental station.

In an eight weeks' period, 32 tons of bristles, 70 tons of silk, 47 tons of tin and 70 tons of tungsten were flown from China to India. Subsequently, 98 tons of tungsten were flown out of India in 10 days.

Planes brought \$475,000 worth of platinum from points on the Persian Gulf.

O. W. I. said these additional materials have been moved or would be moved by plane:

Balsa wood from Central America, needed for American gliders and British mosquito boats.

Tantalite, beryl ore, quartz crystals, industrial diamonds and mica from South America.

Crude rubber from Brazil.

Twenty tons of rubber seeds from Liberia for planting in the Western Hemisphere.

COLLEGES AND NEW DRAFT

By the forthcoming draft of youths of 18 and 19 a severe blow will be dealt to the liberal arts colleges and in lesser degrees to engineering schools. The average college youth is 18 at some time in the course of his freshman year and 19 in the sophomore year.

The new draft will thus lift out of the colleges all the able-bodied youth of the first two years at this semester's end. This will be due for the duration. Unhappily for the colleges, even for those with large endowments, receipts from tuition, even though they do not nearly meet the cost of teaching the individual, constitute a heavy part of the college budget.

Under liberal regulations in the present draft, students well along in their courses have been encouraged to complete them. The same has been the case with college graduates who are students in medical schools, and with men who have completed two years or thereabouts in engineering schools and give promise of becoming specialists in their lines.

The new draft sharply changes this picture. As concerns the liberal arts colleges, they will be losing the bulk of their student population just at a time when there is a terrific shortage of teachers the country over. By the tens of thousands men and women have left the schools to enter the army and engage in war work. Young women in many instances have eagerly sacrificed hopes of tenure for higher present wages.

Some colleges under the draft may have to shut up shop unless they get some sort of temporary subsidy, or their plants are taken over by the government as training schools for the armed forces that will total upward of 9,000,000 men by the end of 1943.

DON'T BE A SABOTEUR!

Early in October, Fire Prevention Week was observed for the twentieth time in as many years. And this year the observance was the greatest in the week's history. The National Board of Fire Underwriters issued colorful posters to every civilian defense unit in the country. In addition, it distributed hundreds of thousands of copies of textbooks on fire prevention, self-inspection blanks for homes, mercantile and industrial properties, leaflets and pamphlets, speeches and other material. Other organizations—public and private, national, state and local—joined in to make the Week a success.

During the Week, the vast majority of the people of this country saw a fire prevention poster, heard a fire prevention talk, or saw some phase of fire prevention actively stressed. They had the opportunity to obtain the simple, interesting and accurate information that underlies practical fire prevention. And now it is up to the people to put that information to work—to make every week, in effect, a Fire Prevention Week.

The National Board's posters carried this message: "Every fire is sabotage today!" And that is the literal truth. Fire is the friend of the Axis. Fire destroys materials, energies, resources and labor that must be devoted to the prosecution of the war. A small fire may not seem important—but the total damage done by thousands of small fires far exceeds the havoc caused by some conflagration which makes the headlines.

Remember: "Every fire is sabotage today! Don't be a saboteur!"

TEAMING FOR WARPLANES

It is good news that aircraft manufacturers east of the Mississippi have followed the example of their Western counterparts whereby eight big companies will engage in thorough-going teamwork for war production.

Three record-breaking years have seen American aircraft production catch up with and exceed combined Axis production. Even this is not enough. The new association, Aircraft War Production Council, East Coast, Inc., is determined no effort at collaboration shall be spared, regardless of individual companies' patent protected and even secret devices, if it tends to give the United Nations overwhelming superiority in the air.

While the eight big companies retain their individual identities in the council, that body will facilitate quick exchange where needed of "resources of engineering research, manufacturing techniques, facilities and materials." More than that, it will make possible the "borrowing" of specialist personnel where needed to solve particular problems or facilitate special manufacture. A most unusual feature of the council, which certainly ought to keep it alert to the opportunity of improving and increasing the whole industry's output, is a rotation of officers every three months.

Each month, 300,000 motor cars are going on the scrap heap, thus making Jeffers' problem that much easier.

The Parent Problem

By Garry C. Myers, Ph. D.

REASON IN STUDYING ARITHMETIC

Children, like adults, vary widely in their abilities to reason and ways of reasoning. Some children do very little reasoning in any school subject. Some others reason well in every subject but arithmetic. These children often are at sea when attempting to solve even a simple verbal problem. Why? Chiefly, I think because they have emotional disturbances and are poor readers.

These children, even students in high school and college (facing a problem in mathematics or physics) are upset emotionally when they can't read a problem rapidly and intelligently. They feel the time is passing and that they should attempt a solution quickly, especially when they are working in class with others who solve such problems with dispatch. Accustomed to hurry at school, the pupil or student inclines to hurry when he is working at such problems at home.

There is nothing more disastrous to good reasoning than the feeling of being crowded for time, particularly when others in one's presence work so much faster or when a teacher or parent urges one to hurry.

Haste Causes Mistakes

Suppose you were a child of the fourth grade trying at home to solve a verbal problem in arithmetic. Suppose then you felt you must hurry. Then you might not read the problem carefully. You might begin solving it before reading it through or taking time to find out what it means. Indeed, you might just look from one group of figures among the words to another group of figures and guess that it is an add, subtract or "guirto" and take a chance at one of these operations.

Now suppose your father or mother got angry at you and yelled at you when you did the wrong thing. Then you hardly would be able to think at all.

Whether a child in the fourth grade faced with a verbal problem in arithmetic, or a college student with one in calculus, you need to take time to read reflectively, to see what it means and to recognize familiar items or principles it involves. How can you do so when you feel jittery and confused?

Calm Atmosphere

The main thing for us parents to do in trying to help the child reason in arithmetic is to create for him a calm, comfortable, hopeful atmosphere. This means that we ourselves must be very calm and serene. Sometimes, by asking a few questions we can lead the child to arrive at the solution, provided we act and speak with complete self-mastery.

In case you find that your child reads very poorly when attacking a verbal problem in arithmetic, read or interpret it for him. Don't tell him you are amazed at his poor reading. After a day or so, induce him, over a period of weeks or months, to practice at easy reading in order to improve in his reading skill. My "Home Helps for Poor Readers" may be had without cost by writing me at 235 East 45th Street, New York City, enclosing a self-addressed envelope with a three-cent stamp on it. LASTING PEACE

This is the hope which spurs us on:
That after the quarrels cease
And the soldiers and sailors home have gone
We shall fashion a lasting peace.

And what will be lasting peace, you ask,
More than the freedoms four,
The right to toil at a chosen task
And an open schoolhouse door;

The right to utter a chosen creed,
Unhindered to live and die;
To a patch of ground in the spring
To seed

And the pride of a coat to buy?
That peace will come with one
Man's ultimate success,
When the poor of earth will be not
So poor

And the rich be glad with less.

HINTS AND DINTS

Sun sets tonight 6:11. Sun rises tomorrow 7:19.

There is a city ordinance that provides for a fine for burning leaves on a paved street.

It looks now as if the death penalty is not severe enough for some crimes. It seems too easy.

Once upon a time our warships were used by our politicians for fishing excursions.

The smaller the nation, the more good braids the generals wear.

Oh gee, I must rush out and buy two or three pairs of rubber boots—they're going to be rationed." "What do you want of rubber boots? You never wore a pair in your life!" "What? Uh...I never thought of that."

After some gals had picked about 50 bushels of apples they thought they would like to have a bushel of them. They got it by paying \$1.45 to the owner of them.

"Be careful, Henry. That's not our baby." "Sh-h-h! This carriage also has sugar and coffee in it as well as a baby."

Willie had returned from his first day in school when his father asked what he had learned. "I learned to say 'Yes, sir,' 'No, sir,' 'Yes, ma'am' and 'No, ma'am.'"

The per capita consumption of soap in 1941 was 29 pounds, which accounts for the need for hand lotions to offset dishwasher hands.

Just as we had flagrant violations under our national prohibition we can expect equal violations under rationing price ceilings.

Before opening a second front, how about telling Washington we are now at war?

But how can mankind attain freedom from fear if wives of the future have the muscles of mechanics?

If Japs from fishing boats buried big guns on Bataan long before the war, what about our Pacific coast?

Of course it feels better after a lot of useless keys are no longer in pockets.

Some people don't want any publicity when they have parties. Some parties can be heard all over the neighborhood.

ONE WILLING WORKER
It seems that a man was arrested in Norway by the Gestapo because he kept walking along muttering to himself. The police asked him

sternly if he had been expressing anti-German thoughts under his breath.

"Oh, no! Far from it!" replied the Norwegian. "You see, I'm out of work, and I was only telling myself that I'd much rather work for 10,000 Germans than for one Englishman."

Mollified, the questioner said that was a different story and even offered to help him find a job. What was his profession? "Oh," came the answer, "I'm a grave digger."

DRAPERIES FOR NORTH ROOM

"My living-room faces the north and as a result gets very little sunlight. Could you advise me as to what kind of draperies we should use on my two windows?"—A. P.

Answer: In rooms like yours so situated that they get very little sunlight, try, by the use of bright accessories, to make them as cheerful as possible. Hang glass curtains only, on your windows. Omit draperies and portieres.

Select a bright wallpaper with harmonizing but colorful lamp shades, vases, pillows, pictures and other accoutrement. Do everything possible in your decorative scheme to compensate for the lost sunlight. In every idea for interior decoration you have for this room, think in terms of brightening it and select only items that will help attain that end.

Question: Must visitors tip the servants in a home where they spend the week-end?—Alice. Answer: Usually this is done, except in homes wherein the hostess objects to the practice and has made known to her servants that they need not expect tips from her guests and she gives them sufficient remuneration to compensate them for extra work. Tips are given direct to the servants or left in the bedroom when the guest departs. They should never be given in the presence of the hostess.

Question: I am to be maid-of-honor at my sister's wedding at which I should like to wear a white dress, but my sister thinks I should wear a color—that she should be the only one dressed in white. Please advise me.—H. O. M.

Answer: I think your sister is correct. It would be definitely better for you to wear a color. On that day of days a bride wishes to be outstanding, and she would be set off to perfection were she the only one in white.

Kaiser Sees Prosperity At End Of War
Sees What Use Scrap Can Be Turned To
War Materials Can Be Converted To Use

By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, Oct. 22.—Transforming scrap into fighting equipment is necessary at present but it isn't a constructive use to make of the stuff, points out Henry J. Kaiser, the shipbuilder. We're learning something, though, he adds. We're discovering that the junk really is valuable, melted and then recast into economically productive machinery.

Hitherto we've regarded it as a lot of junk old fragments, not worth salvaging. The war's taught us that it's almost priceless raw material, to turn into guns, armor, etcetera, vitally necessary to lick the enemy with.

Of course, when the conflict's over all this military furniture will degenerate back into scrap, but, by that time, we'll understand what to do with it.

We'll use it to rebuild for peacetime utility, according to Henry Kaiser, and we'll need, he remarks, unlimited quantities of it, for nearly everything on earth will have to be made over, at the existing rate of destruction.

It will be a great era of prosperity, in Henry's opinion—jobs aplenty, a huge demand for everything imaginable and business simply humming. Economists quite generally agree that there'll be a post-war boom for awhile, but a good many of 'em forecast that it'll blow up ultimately, to be followed by a prolonged depression. Their judgment is that a big war can't possibly end otherwise. Henry, however, insists that the imperative urge for production (or reproduction) will take perfectly good care of us, with "sound economic statesmanship," which he's convinced will be available. He is, in short, an enthusiastic optimist, whom it's comforting to hear in the midst of so much pessimism.

Back to Melting Pots

But scrap? It figures largely in Henry's calculations.

It won't have to be dug up and doctored by chemists and metallurgists, as it's already made it.

The World and the Mud Puddles

ANOTHER SUBSTITUTE

This is a story of faith, loyalty and the way American ingenuity solves its problems.

Maybe some of your housewives don't know it, but the making of tin cans ended Wednesday, September 30th. And it is possible that when the present supply is exhausted you will never see another tin can. The reason—or one reason—is that a man in Pomona, California, who has struggled along for years as a chemist has invented a process which is being turned into containers cheaper and in many respects better than tin cans. It's not a pipe dream for it is already in use and giving complete satisfaction and many of the biggest organizations in the country are seeking to obtain the use of his patents.

A. A. Robbins is the man. He is fifty years old and was graduated from Texas A. & M. quite a while ago. He is a chemist and for years has lived among his test tubes. The years went by and though he was an excellent chemist, no great achievement made things easy for his family.

Five years ago he and his wife and one son settled on a small orange grove in the outskirts of Pomona. One day they bought a bag of doughnuts. The grease from the doughnuts soaked through the bag and Mrs. Robbins was afraid it would soil her dress. Dresses in the Robbins family are very hard to get and the thought worried them.

That gave Robbins an idea. If he could perfect a greaseproof bag it would be more practical than some of his experiments and there might be a market for it. He got busy with his test tubes.

Some wives would have thought Robbins should have given up a profession which had never paid him very well and get a job. But Mrs. Robbins had faith in Robbins. She went to the Pomona factory to keep the house going while Robbins kept working in his little laboratory. He worked for nearly five years without success. Then about eight months ago he thought he had what he wanted. He took a sample of his product to H. M. Boner, head of the manufacturing department of the Macmillan Petroleum Co. Boner examined the product and said:

"I don't know what it is. But you've got something for which everybody is looking. That stuff will make a leakproof, soilproof container for oil—and what will contain oil will contain practically anything. You've solved the can problem."

And Boner wasn't pulling any boner. Robbins went home and told his wife and she quit her job. Robbins will get a royalty on every can or container manufactured and she doesn't even have to work again.

R. S. Macmillan went to Washington and arranged to give the use of the patents to the automotive industry. So when you buy oil in a "can" which looks like paper but isn't quite that, it won't let any of the oil soak through and you will know how it all came about.

Blessed shalt thou be when thou comest in, and thou shalt thou be when thou goest out.

—Deuteronomy 28:6

It's not marriage that's wrong. It's who gets married to whom, and why. That's where the trouble lies.

When a woman goes out to buy a hat she tries on many before she buys. She looks in the mirror, front, back, sides. Is it hat becoming? Is it her type? Is it suited to her?

When a man buys a package of cigarettes, he wants the particular brand he likes, the brand that suits his taste.

But when you pick a wife "for better or for worse," till death do you part—that's different. You meet a pretty flash. You take her to dinner and a show. You have a few cocktails and you look at the world through rose-colored glasses.

"Pretty swell, dish," you say to yourself. "Just the thing for those lonesome evenings."

You pop the question. Another cocktail to think it over.

She says, "Yes," and in parenthesis, adds to herself, "I'm tired of working anyway, and he looks like a good meatloaf."

Then the fun starts. Sometimes it's a knockout. Sometimes a draw. Divorce!

No, it isn't marriage that's wrong; it's the people who marry.

Brush Fire Rages At Malibu Beach

**Soldiers, Foresters Battle Blaze
Threatening Homes Of
Movie Colony**

(International News Service)
SANTA MONICA, Cal., Oct. 22.—Hundreds of additional volunteers rushed to the aid of weary soldiers, coast guardsmen, foresters and firemen from nearby cities Wednesday in battling the destructive brush fire which has raged out of control in the mountains near fashionable Malibu Beach for more than 24 hours.

Efforts of the nearly 1,000 fire fighters to check the blaze were thwarted by winds which spread the blaze wildly in all directions, blackening an estimated 3,000 acres and threatening many palatial movie colony estates, including the mountain home of Actor Richard Dix.

Already the blaze has destroyed thousands of acres of watershed in the mountainous area. In the latest reports from officials directing the fire fighters, no loss of life or destruction of dwellings was announced, although many outbuildings, water tanks and the like were reported destroyed.

usable. It'll just be waiting, in the form of old, worn-out artillery and armorplate, to be chucked directly into melting pots, for molding into exactly what's required, in short order.

I surmise that scrap collection from the country's households has been so energetically advertised as to have given the average individual an impression that the national supply already is about cleaned up.

That's a mistake.

The campaign was a highly creditable one and the nation's scrap collectors greatly appreciate it. Housewives contributed loyally. Collectors overlooked no bets. If you had an untended lawnmower loose in your dooryard and didn't want to see it next in the guise of a shooting-iron, it behooved you to get it under cover. If you had an extra jackknife in your pocket and didn't contribute it, you had a sneaking suspicion that you were remiss in your war effort.

The fact remains that, speaking practically, this sort of scrap is not in excess of 20 per cent of all that's available throughout the United States.

The remaining 80 per cent is in plants and factories—outmoded machinery, known as "industrial scrap". Thus far not much has been done toward its collection.

Plants Like Housewives

It seems that a big industrial concern can have, thoughtlessly tucked away in its basement, two or three tons of machinery, unused since heaven knows when, as a householder can be equally oblivious of a can-opener in his pantry shelf.

These 80-per cent centers are now being awakened.

A group of industries, organized as the American Industries Salvage committee, under the chairmanship of President Robert W. Wolcott of the Lukens Steel company of Coatesville (Pa.), has charge of the drive.

It's a drive on which the committee's spending \$2,000,000 of its own cash, mostly on advertising.

It's being done in a rush, too—before snow flies, where it doesn't fly too soon.

It's important today.

A bit later it'll be more important yet, according to folk like Henry Kaiser and Chairman Wolcott of the Industries Salvage committee.

I presume that Bob Wolcott hopes to salvage 'em later, as well as right now.

So does Henry Kaiser.

HIT-RUN DRIVER'S LICENSE WAS SEEN

The hit-run driver had not been identified today, but the owner was said to be a Pittsburgh man.

The child was struck on the head by the fender, and knocked to the street as he was crossing Main street on his way to school. X-ray tests showed that the injuries were not serious.

the vital problem of man power is being approached and the terrible menace of inflation guarded against—and other things.

IT IS a clear understatement to say that in his handling of these things the administration is feeble. It has shown neither a clear sense of direction nor a determination to grapple with realities. But, whenever a radio commentator or a newspaper columnist has ventured to point out the obvious facts, the White House reaction has been not to change to more realistic activity. Rather it has been to personally reflect upon the individuals who had the temerity to indict war-management looseness and intimate that the trouble was at the top—where it is. If Mr. Willkie has got the stuff in him—if he has not been taken into camp by Mr. Roosevelt, who certainly made it possible for him to have his recent very wonderful experience but who has no more personal regard for him now than he had in 1940—if he is a real national leader—then Mr. Willkie will cut out these exciting and dramatic trips abroad and settle down to using his influence to force the President toward the essential action needed to save our domestic economic situation.

THE WISDOM of his recent advice to the public to prod their military leaders into launching a second front is open to question. The wis-

dom of prodding the President to abandon his black list; to stop coddling the labor lobbyists; to face fairly the fearful financial facts, is not open to question. Congress has just passed what is probably the worst tax bill in history. Worst, not in the sense that the taxes are too high, because they are not high enough, but worst in the sense of its basic stupidity, its demagogic political provisions and its inexcusable avoidance of the logical steps. This is a bill, which heads us straight toward economic chaos. There is a chance in the next session of Congress to swing back on the right track. But it will take a very strong and critical opposition to compel the administration to swing. Nothing Mr. Willkie has done abroad can compare in usefulness to what he could do in compelling this swing. If he now devotes himself wholeheartedly to this cause he

will not only serve the national interests but his own as well. If he continues to think only in terms of global military strategy, he will not promote either.

OAK STREET P. T. A.

Oak Street Parent-Teacher Association met in the school building with Mrs. James M. McClain in charge. The opening period consisted of the singing of "America" and giving the flag salute.

After a brief business routine, the group welcomed two new staff members, Principal Cornelius and Miss Martha Shaffer.

It was planned to hold sessions on the second Tuesday of each month, which is a change in their usual procedure.

In closing, the hospitality committee served a tasty halloween lunch. They were: Mrs. Trevor Griffiths, Mrs. C. Roberts, Mrs.

Robert Campbell, Helen Hinkson and Mrs. Alec Rigby.

UNION TOWNSHIP

Union Township Parent-Teacher Association met in the high school Tuesday evening with H. M. Reynolds presiding. The meeting opened with group singing, followed by a Spanish dialogue and songs by the students of Miss Cloak's Spanish class. Georgia Bock accompanied the songs on her accordion.

Mrs. James Crawford was the speaker and showed colored motion pictures of Mexico.

The next meeting will be held the third Tuesday of November.

Degree of Honor

Degree of Honor members, will meet Friday evening in the I. O. O. F. hall at 8 o'clock. Initiation of members will be held at this time.

RECENT BRIDE FETED WITH SHOWER PARTY

Mrs. Russell Bowers, nee Frances Kline, was pleasantly surprised on Tuesday evening when a group of friends and relatives gathered at the K. Pulaski hall, Oakland, for a miscellaneous shower party, held in honor of her recent marriage on October 17, in St. Mary's parish.

An informal program was planned and the guests, numbering approximately 100, enjoyed various pastimes. Dancing was one of the main features, music being provided by Victor Wagner and his phonograph.

The guests were served a delicious lunch at a later hour and a few of the friends and relatives assisted in serving.

Private First Class and Mrs. Bowers were recipients of many lovely and useful gifts in remembrance of the occasion.

Friday morning, Pfc. Russell Bowers will depart for Ft. Ogden, Ga., to resume his duties and Mrs. Bowers will remain here with her parents for the present time.

LADIES C. T. P. GROUP LUNCHEON-ELECTION

Ladies C. T. P. Group of the B. and O. met in regular session Wednesday afternoon in the American Legion Home, for a luncheon and election assembly.

At 1 o'clock, the assemblage was served a delicious menu and the business routine followed with their retiring president, Mrs. J. B. Daugherty, presiding.

Election results are as follows: Past president, Mrs. J. B. Daugherty; president, Mrs. A. J. Young; vice president, Mrs. Leo Whalen; secretary, Mrs. Ray Nolte; treasurer, Mrs. George Nolte; chaplain, Mrs. James Eagan; sick committee chairman, Mrs. Frank Logue.

The membership accepted an invitation extended by the men, to join them for a dinner party at 6 o'clock on November 4. However, their next regular meeting will take place on November 18 at the Legion Home, and will be in the form of a covered dish dinner.

McGEORGE CLASS TO REMEMBER ARMY MEN

At the regular monthly meeting of the K. McGeorge Bible class of the Second United Presbyterian church, at the home of Mr. and Mrs. Henry Stoner, Huron avenue, Tuesday evening, it was decided to send boxes to the 43 boys and one nurse who are serving in the armed forces from the church.

Mr. and Mrs. Howard Carr and Mrs. Ethel Boyd were co-hosts. Twenty-four were present for the business meeting conducted by Ray Cunningham and the games and contests which were later enjoyed. November meeting will be at the home of Mr. and Mrs. Harold Shaw, of Volant.

Engagement Announced

Mr. and Mrs. H. J. Kenahan of the Youngstown road announce the engagement of their daughter, Miss Mary Ellen Kenahan, to Angelo J. Cimino, son of Mr. and Mrs. Joseph Cimino of Croton avenue.

Castlewood Pastor Will Be Installed

Service This Evening At Castlewood Christian and Missionary Alliance Church

There will be an installation service tonight in the Castlewood Tabernacle of the Christian and Missionary Alliance, Castlewood, at which time Rev. Lawrence VanHorn, the new pastor, will be formally installed.

The song service will be conducted by Rev. Henry Sumner, of Washington Union Mission, New Castle. D. Pinney, of Beaver Falls, will deliver the charge to the pastor while the charge to the congregation will be given by Rev. Norman McGarvey, of Darlington. Rev. J. H. Boon, of New Castle, will be chairman of the meeting.

Mr. VanHorn comes to the church at Castlewood from a very successful ministry at the Alliance church in Kane, having served the church there for several years. Mr. and Mrs. VanHorn and their two children have moved into the parsonage just recently purchased in Castlewood.

Furlough 4,000 Miners From U. S. Army Service

(International News Service)
WASHINGTON, Oct. 22—Under-secretary of War Robert P. Patterson today announced that 4,000 miners have been furloughed from military service so that they can return to the mining of ore vitally needed in the war effort.

Patterson added that he "sees no need at this time for furloughing other troops in a similar manner." President Roosevelt yesterday said that many older soldiers would soon be furloughed for assignment to work in war industries for which they had been particularly trained.

Resurfacing Of Mill Street Begins

State Street Open To Traffic;
Widening South Jeffer-
son Street

Downward company today com-
menced placing asphalt on South
Mill street, between the bridge and
Long avenue.
The city has let a contract to the
company by which all city main-
tained streets from which rails were
removed will be resurfaced.
Traffic Lieutenant Thomas Jones
said no detour has yet been deemed
necessary in South Mill street.
John Z. Street, city engineer, re-
ported State street, which was wid-
ened and paved, has been opened to
traffic.

This city engineer also reported
that widening of South Jefferson
street between Moravia street and
Croton avenue extension got under
way this morning, and when this
job is completed by the New Castle
Duntle company the company will
pave Sherman street. The railroad
companies will be required to move
some of their tracks at the latter
place, it was said.

place at the dinner meeting of the
Executives club Tuesday evening, in
The Castleton, were made known
today by President Orville Potter.

The new directors are: Clare B.
Book, James A. Rugh and Rev. J.
Calvin Rose, who succeed W. W.
Duff, William J. Caldwell, and R. L.
Meermans. They will serve for
three years.

The above men, with the other
directors, Dr. E. Henderson, R.
A. Eckles, Judge W. W. Braham,
W. F. Campbell, Orville Potter and
Attorney Roy Jameson, will meet
soon and elect a president, vice
president, secretary and treasurer,
who will take office at the next
meeting.

Civilian Goods Simplification To Be Increased

(International News Service)
WASHINGTON, Oct. 22.—Donald
M. Nelson, chairman of the War
Production Board, declared today
that the time has arrived when sim-
plification of civilian goods must
be pushed much more rapidly.

"I believe a great deal can be
done to decrease the amount of ma-
terials going into essential civilian
goods through simplification of
lines," Nelson said at a press con-
ference. "The purpose is to get
more numbers of items with less
material and manpower."

Nelson added that he had ordered
the Office of Civilian Supply to get
up a list of items absolutely essen-
tial to the civilian portion of the
nation's wartime economy so that
they could be programmed and sched-
uled in the same fashion as the di-
rect weapons of war.

More Stringent Dimout Rules For East Coast

(International News Service)
NEW YORK, Oct. 22.—New and
more stringent dimout regulations
for the eastern seaboard are being
formulated by the war department.
Major Warren S. Everett, assistant
executive officer of the engineer
board, Fort Belvoir, Va., revealed to-
day.

Major Everett told illuminating
engineers that the new rules to
control lighting along the coast
would be put into effect without
"vacillation or temporizing." He
said the army's objectives in draw-
ing up the rules were: The extin-
guishing of all unnecessary light,
reduction of the "beacon" effect of
the sky glow and the control of all
necessary exterior lighting so that
it can be extinguished in five min-
utes.

Papers Signed
For Sanatorium

(International News Service)
HARRISBURG, Oct. 22.—Papers
turning over the unused \$3,000,000
Butler sanatorium to the army have
been signed by the state and for-
warded to Washington for federal
approval, Gov. Arthur H. James dis-
closed today.

The chief executive indicated that
the war department's approval
would be forthcoming. The hospital,
constructed in 1937 by the General
State Authority as a tuberculosis
sanatorium, was never used. It is
being leased to the war department
for conversion into a hospital for
convalescent soldiers at an annual
rental of \$160,000.

The war department recently au-
thorized the expenditure of \$2,000,-
000 for enlarging the institution so
that it will accommodate 1500 pa-
tients. The negotiations have been
under way since March.

Probe Sheltering Of Draft Evaders

Massachusetts Legion Begins Investigation Of Theological Schools, War Plants

(International News Service)
BOSTON, Oct. 22.—Charging that certain war plants and theological schools are being used as shelters for men seeking to avoid military service, the Massachusetts state department of the American Legion has begun an investigation, the Boston Evening American stated Wednesday.

Dr. H. Hall, department commander, heads the probes who will confer with Col. Ralph M. Smith, state director of selective service, and the Federal Bureau of Investigation officials for a checkup on work on every man engaged in war plant work and every theological student in Massachusetts.

The American stated: "Among the charges made by the legion in connection with its drive to forestall conditions such as became a national scandal in World War I was an allegation that one group of 175 persons, formerly living in New York, came here and secured skill work in the Fore river ship yards in Quincy solely to avoid military service. Few if any of this group had mechanical skill, or mechanical training, yet they were employed as skilled workers at high wages.

"In other instances it was charged that a theological school—not in Boston proper—which never had more than eight or ten new students at a time prior to the war now has between 200 and 300."

MAYBE GRANDMA'LL TRY FOR WAVES

(International News Service)
NEW YORK, Oct. 22.—A father and son were inducted into the army Wednesday.

"It's all in the family," said George T. Howe, Jr., 46, as he and George J. Howe left with a large contingent of draftees for Fort Dix.

"Yep," said George T. Howe, Sr., 68, father of the elder man, "I tried to get into the navy, but they said I was too old. Bah! Nobody's too old to squeeze a trigger."

Grandpa Howe, after bidding adieu to the younger Howes, said: "I'm going back to talk to those navy men again."

Russian Relief Total Over \$900

V. I. Mandich, general chairman of the Russian Relief program held in Bessemer Saturday night, October 17, today announced the final totals of the money received for the purchase of medical and surgical supplies to go to Russia.

The total net amount realized from the program is \$901.35. The gross receipts were \$1,140.96. The committee is pleased with the generous response to the appeal. The committee responsible for the success of the program, along with General Chairman Mandich were Marion Vlah, vice chairman, Mary Sniezic and John Kukic Jr., treasurers, and the following general committee:

A. A. Shoup, M. L. Moses, Harry Hinson, Carl D. Montgomery, Joseph Martin, Catherine Zatkovich, Frank Hulina, Milena Sineich, Jim Karsel, Johnny Vlah, John Sajvec, John Slavich, Blaz Sankovich, Matt Ujchic, Tony Potocnik, Steve Dmitruk, Frank Spincic, James Kalcic, Joe Glavan, John Sniezic.

Hull Strongly Denounces Laval

Secretary Of State Declares Pro-Hitler Acts Of Laval As Bad As Hitler Himself

(International News Service)
WASHINGTON, Oct. 22.—Secretary of State Cordell Hull strongly denounced French Premier Laval on Wednesday for attempting to compel French workers to do forced labor in Germany.

Taking the unusual step of allowing direct quotation of his remarks, the secretary declared:

"I think you will recall that this government, at the present, the president and the State department in particular, readily took the lead after the setting up of the government at Vichy—in proclaiming and keeping alive all the doctrines of policies an ideal of what was, once the great, free, French republic and in condemning of pro-Hitler acts of Mr. Laval just as we condemn Hitler himself.

The go-getter does the building, but the lazy man, trying to dodge work, provided all the ideas.

The Golden Text

The marriage feast

"Let justice roll down as waters, and righteousness as a mighty stream."—Amos 5:24.

By NEWMAN CAMPBELL

(The International Uniform Lesson on the above topic for Oct. 25 is Eccle. 10:17; Amos 5:21-24, II Cor. 6:17, I Peter 4:1-5, the Golden Text being Amos 5:24, "Let justice roll down as water, and righteousness as a mighty stream.")

"Happy art thou, O land, when thy king is the son of nobles, and thy princes eat in due season, for strength, and not for drunkenness."

The book of Ecclesiastes, from which this quotation is taken, may have been written about 975 B. C. That is a long time ago, but it is as true today as it was then. Happy, too, are our homes when all members therein eat and drink for strength to do their work, and not merely for the pleasure of eating and drinking more than they should.

Amos prophesied about 790 to 785 B. C., and in the following passage from his book he makes the Lord to say:

"I hate, despise your feasts, and I will take no delight in your solemn assemblies.

"Yea, though ye offer Me your burnt-offerings and meal-offerings, I will not accept them; neither will I regard your peace-offerings of your fat beasts."

"Take thou away from Me the noise of thy songs; for I will not hear the melody of thy viols. "But let justice roll down as waters, and righteousness as a mighty stream."

Isn't that last a fine, sonorous line? It is one of those many lines in the Bible which should be recalled when we are tempted, to help us to resist the temptation.

Forms Not Acceptable

As to the rest of the quotation, it means that this some righteousness is more—much more—acceptable to our Maker than rituals, the forms of the church. They are necessary to conduct Sunday service, but they are not what makes us good, Christian people, no matter how faithfully we perform them. We must be just and live righteously.

"So then let us follow after things which make for peace, and things whereby we may edify one another. "Overthrow not for meat's sake the word of God. All things indeed are clean; howbeit it is evil for that man that eateth with offence. "It is good nor to eat flesh, nor to drink wine, nor to do anything whereby thy brother stumbleth."

of America's Health Program!

Sealtest VITAMIN "D" HOMOGENIZED MILK

Food is a vital weapon in this war! The sturdiest nations will win! That's why our Government has launched a great campaign to improve our health and make us strong. And in the front line of this campaign is MILK.

Here is the ideal milk for this important job . . . Sealtest Vitamin "D"

Homogenized Milk. To the natural, rich store of vitamins in our Sealtest Milk, we have added 400 units of precious Vitamin "D" to every quart.

And it's Homogenized! This insures an equal share of milk's vital food elements in each glassful—and gives the milk a richer, creamier flavor.

Join in this great campaign to make America strong. Serve plenty of nourishing, strength-building foods—and be sure to include Sealtest Vitamin "D" Homogenized Milk as the milk for your family. Order from our milkman—your favorite store—or telephone 2500.

BLAME YOUR LAZY
LIVER BILE IF—
CONSTIPATION with its headaches, mental dullness and that "half-alive" feeling may often result when your liver doesn't secrete 20 to 30 ounces of bile every day into your intestines. So you see how important it is to keep bile flowing freely! And what finer aid could one desire than Dr. Edwards' Olive Tablets, used so successfully for years by Dr. F. M. Edwards for treating his patients for constipation and sluggish liver bile.
Olive Tablets are unsurpassed in effectiveness because they stir up liver bile secretion to help digest fatty foods, they tone up muscular intestinal action, at the same time help elimination. Being purely vegetable, Olive Tablets are wonderful! Test their supreme goodness TO-NIGHT without fail! Follow label directions. 15c, 30c, 60c. All drugstores.

CONFERENCE
The fourth and final meeting of the Young Zion's conference of the Zion, Mt. Zion, Harmony and Harlansburg Baptist churches will be held on October 25. This will be an afternoon and evening service at the Zion church. Miss Gertrude R. Anderson, just returned from missionary work in Burma, will be the speaker.

W. W. G. MEETING
The W. W. G. meeting at the home of Mabel Kneram on Thursday night was well attended. The evening was spent sewing and devotions were in charge of Dorothy Harlan. Each member responded with a favorite scripture verse, and the meeting was closed by repeating the pledge.

CLASS MEETING
The Rev. Humphrey Bible class will hold its October meeting in the form of a Halloween party at the home of Mr. and Mrs. Carl Johnson on the New Castle-Ellwood City road on Friday evening, October 23.

BLUEDORNS HONORED
Miss Edyce Lou Benson opened her home to the teachers and senior class of the Harlansburg school for a shower in honor of Mr. and Mrs. John Bluedorn. Members of the 1942 graduating class were also present. Mrs. Bluedorn, nee Lucille McCracken, was a member of the present senior class.

The evening was spent playing both indoor and outdoor games and later the honored guests opened a number of beautiful gifts. Lunch was served by the senior girls.

HARLANBURG NOTES
Mrs. Ella Totman spent a day recently visiting at Conneaut Lake. Mrs. Elizabeth Harlan spent Saturday visiting friends at Adamsville.

Mr. and Mrs. Lester Morris and son have moved from the Harry Cunningham house.

V. T. Warfel of Schwenksville spent a day visiting at the state game farm last week.

Mr. and Mrs. Norman Montgomery of Bridgewater were recent guests of Mrs. Edith Harlan.

Mr. and Mrs. Theodore Jervis and family, of Evansburg, were Sunday guests of the D. M. Jervis family.

There was good attendance Friday evening at the annual fish fry, sponsored by the W. C. T. U. in benefit of teaching the Bible at the school.

Mr. and Mrs. Frank McElwain and daughters visited last Sunday afternoon at the home of Mrs. Sarah McElwain and family of near Rose Point.

Mr. and Mrs. James Hill and daughter, of Pittsburgh, and Mr. and Mrs. Brown of West Sunbury were recent guests at the Russell McClelland home.

Mr. and Mrs. Norman Wimer of New Wilmington spent Sunday afternoon with the former's parents here and attended the dedication service at the Baptist church in the evening.

Recent guests at W. J. Eakin's home were Mr. and Mrs. Harold Orfutt and son, Billy, on Saturday evening, and Mr. and Mrs. Chester White and son Ronnie, on Sunday afternoon.

Everything Willie does seems to offend those who haven't forgiven him for running against Roosevelt.

Womens Groups Help Almira Donation Day

Individuals To Take Foodstuffs
To Almira Home November 4—Groups Aid
Collection

Several large women's organizations in the city are encouraging their members to contribute foodstuffs to the Almira Home on donation day, November 4, by collecting the members' individual donations at meetings during the next two weeks.

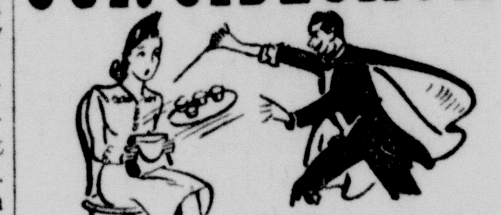

In this way, the meeting place will serve as a convenient collection center for the eatables which are given annually one day every fall to the Almira Home for aged women on East Washington street by interested individuals.

This year, as always, staple groceries—potatoes, flour, dried beans, onions, rice, and dried fruits, are needed. Jellies and preserves are also especially welcome as the home uses hundreds of glasses of these. With sugar rationing in effect, the expectation is that gifts of money will replace the many large sacks of sugar that have been given other years. This can be applied on the home's ration cards.

Reading Circle members will take their donation day gifts of groceries to their meeting October 26 at the home of Mrs. Norman Ehrlich Laurel boulevard. And the Hershey chapter of the First Presbyterian church will have a donation day ingathering at its meeting at the church on November 2.

Serving on the donation day committee are Mrs. W. Walter Braham, chairman, Mrs. R. J. Robinson, Mrs. James D. Crawford, and Mrs. Lauren H. Twayer.

COOKIES FOR ROOKIES

(International News Service)
BOSTON—"Cookies for Rookies" is the latest contribution from the

home front to the boys in the armed services. Rallies are being held with two dozen cookies as the price of admission. At the meetings house-

wives are asked to pledge weekly donations of cookies to be relayed to service camps.

'PANIC BUYING' OF HOARDERS USELESS

(International News Service)
NEW YORK, Oct. 22.—Coffee-drinking America today was assured that there is no shortage of the popular bean and there is not likely to be any rationing unless made necessary by "panic buying" of hoarders.

The unavailability of coffee in retail stores while the nation's warehouses are bulging with the unground and unroasted product—a veritable "want in the midst of plenty,"—was explained by George C. Thierbach, president of the National Coffee Association, as due to three factors—delivery, packaging and hoarding.

Distributors and processors, Thierbach said, are having difficulty in switching from the familiar "vacuum-packed" can method of packaging to the new glass containers and this has been responsible to some extent for the delay in filling orders from dealers. Further complicating the situation are the delivery limitations imposed because of rubber and gasoline shortages.

But even this would not have caused the shortage now reported in retail stores, which Thierbach declared, is traceable directly to hoarding by coffee-lovers.

"Panic buying of coffee at the present time," the official said, "is not only unwarranted, but foolish. The coffee is a highly perishable product and people buying large amounts will find that by the time they come to use the coffee, it will have lost its flavor and aroma. While fresh coffee will at the same time be freely available in retail stores."

Without Painful Backache
Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or annoying passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

High Explosive Bomb Instruction

Two Day Session To Aid Civilian Defense Workers Under Way

Lawrence county civilian defense workers, utility and industrial representatives today were receiving information on bomb reconnaissance in the Cathedral and will have a like opportunity Friday because the lessons will be given over a two days period with Lieutenant Saldman, instructor, third civilian defense region, in charge. Today's session got under way at 8 a. m. Friday's meeting will also start at 8 a. m.

Considerable attention has heretofore been paid to the characteristics of incendiary bombs and methods of extinguishing them, but no information has heretofore been available on the treatment of explosive bombs.

Queer Markings On Enemy Submarines

Survivors Of Torpedoed Ships Report Puzzling Insignia On Craft In Atlantic

(International News Service)
AN EAST COAST PORT, Oct. 22.—Enemy submarines operating in the North Atlantic are carrying queer and individual markings and insignia, according to survivors of two vessels recently torpedoed and landed by rescue craft.

Survivors of one sinking stated that one of three submarines which torpedoed their vessel and which surfaced after the attack bore a circle on the conning tower. The circle was similar to a die. The top face had the number "1." On the left face was the number "8" and on the right the numeral "5."

Survivors of another sinking previously announced said the submarine which attacked them also surfaced. It carried three ostrich feathers on the conning tower.

CHEWTON

PLAN HONOR ROLL

The citizens of Chewton and vicinity are planning to erect an honor roll on the lawn of the Chewton Christian church. It is to contain the names of all the young men of the community who have entered the service of the United States. Each church, lodge and local organization is helping plan the project.

With Charles P. Durbin, chairman of the Wayne township Civilian Defense, in charge. An appropriate dedication service will be held upon its completion.

Second Pilot Group Finishing Course

'Primary Flight' Work About Over, And 20 More Are Due

A second squad of 20 service pilots-to-be are rounding out their primary flight instruction at New Castle airport, preparatory to moving ahead into advanced phases of training.

Findley C. Wilson, head of Wilson Aviation, Inc., airport operator, said a third group of 20 students are expected to start in November.

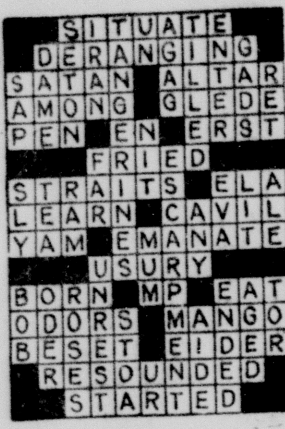

When the current class finishes its session, it will mean New Castle airport has sent a total of 40 into the army and navy air forces in recent months.

Returning from a New York visit, Wilson said navy representatives in the metropolis voiced high praise for the training being given young men under the Civilian Pilot Training program here and at other airfields.

He said inclement weather tends to "slow up" training work, but never interrupts it.

LADIES' AUXILIARY

The Ladies' Auxiliary of the Earl J. Watt post of the American Legion, unit 638, held their meeting Monday evening in the Legion Home. New officers for the ensuing year were installed, with Mrs. C. Donaldson, of Erie, western director, conducting the ceremony. Those taking office were: Mrs. Laura Seltzer, president; Helen Kenney, first vice president; Anna Ball, secretary; Florence Kanegiser, treasurer; Dora Connors and Belle Kerr, chaplains; Ada Scott, sergeant-at-arms, and Harriet Lusk, historian.

During the evening Mrs. Mona Reed, with appropriate remarks, presented the retiring president, Mae Pitts, with the past president's pin. Mrs. Pitts also received a shower of handkerchiefs from members of the auxiliary, presentation being made by Ruth Bradley.

At the end of the meeting a delicious lunch was served at tables for four, and the remaining hours were enjoyed socially. The committee in charge consisted of Helen Wallis, Wilda Heard, Ella Reed, Ruth Bradley, Belle Kerr and Mona Reed.

The next meeting of the auxiliary will be Monday evening, Oct. 26, in the Legion Home. Post members will also meet at this time, when officers will be elected.

(International News Service)

PITTSBURGH, Oct. 22.—Pitts-

burgh Magistrate W. H. K. Mc-

Diarmid held four youths for court

Wednesday after they pleaded

guilty to stealing and stripping 35

automobiles, selling the tires and

auto parts in Pittsburgh and John-

stown.

The youths admitted making

weekly trips to Johnstown during

the past five months where they

sold 150 tires and parts they

stripped from the stolen cars.

Twenty-five tires have been re-

covered, police said.

The four youths arrested here

were all from Pittsburgh but de-

tectives said that nine others have

been arrested in Johnstown on

charges of receiving stolen goods.

All are wanted also by the FBI,

detectives added.

WETLICH LEAVING

After ten years of service on

Court House Hill, Henry Wetlich,

chief clerk in the county treasurer's

office, is leaving for private in-

dustry, effective Monday, October

26. Mr. Wetlich first entered coun-

ty service in the county con-

troller's office and later switched

over to the county treasurer's of-

fice. He has been an efficient chief

clerk and his leaving puts a hole

in the treasurer's force that will

be hard to fill.

FAIR or FOUL

By LAWTON CARVER
INS Sports Editor

(International News Service)
NEW YORK, Oct. 22.—A little while ago there was considerable bawling among the more righteous pugilistic followers of Henry Armstrong's proposed comeback. It was pointed out at great length that when Fritz Zivic took the last of the little Negro's three titles, then scored a knockout in a return match, it means the end of a great figure as things are measured by the sometimes loose standards of the cauliflower industry, so-called. It meant that the bull-necked winner of the feather, lightweight and welterweight crowns, and holder of some all at one time, had lost the tremendous stamina that made him unique and might lose his eyesight too if he got himself punched around much more.

Brows Battered
His brows had been battered into ribs of scar-tissue that made the merest flick of a glove almost like a saber-slash. The time when he didn't have any scar tissue and when you couldn't pop him in the eye anyhow long since had passed. But with one thing and another he managed to leave himself very short in the reach, or practically broke, and then he announced the comeback that caused those who had known and watched him in better days to say he shouldn't be allowed in the ring any more. Armstrong's reply in the last few months has been to fight himself back into the middle of the national spotlight and on next Monday night he will get the answer as to how far he is going along the comeback trail. On that date at San Francisco he will meet—guess, Fritz Zivic.

Lake Armstrong, Zivic is old too and he has been fighting up and down the land with gloves since shortly after he laid aside his music in keeping with the Grant and Lee pact at Appomattox. But, unlike Armstrong, Zivic is not making a comeback since blowing the welter title to Freddie (Red)

Cochrane. Fritz never did stop fighting so he has no place to come back from. He just keeps on going, with little likelihood of his retiring soon, what with the war giving the elderly glove-fighters more opportunities than they would have normally when young, rough, tough fighters would be around smacking them all over the joint.

Winner Is Question
I wouldn't pretend to know who will win the California battle. That probably will depend to great extent upon how much brisk action Zivic still can muster, if any, and how well Armstrong's eyes stand up unknocked by punches he may block with his brows. It will depend too on how fast Armstrong can go and how much punch he has left, and how much bounce and landed so often, while he plowed in slaving at the mouth and with his hair on end, that his foes almost without exception finally succumbed from weariness.

He was almost inescapable when he got after you in the ring, the question now being will he get after Zivic or vice versa, and will they ease up a little on each other out of respect for old age?

The point of all this seems to be that this is an old man's war—the boxing game as it is today.

Toles Defeats Arturo Godoy

(International News Service)

RIO DE JANEIRO, Oct. 22.—Roxie Toles, Negro heavyweight of Detroit, today held a decision over Arturo Godoy of Chile. Toles got the referee's nod in a 12-round fight last night at the Fluminense stadium.

HERE AND THERE IN SPORTS LAND

Al Ettore, former heavyweight of Philadelphia, is a Marine at Parris Island; likewise, ex-light-heavyweight champion, Tommy Loughran and Young Terry whose right name is Tearence Paine. . . . Penn Spotti, former amateur who fought here and who later turned pro is in the Navy.

When Frankie Moran, now a private on furlough, begins his basic training he will be in good condition. He is training for his bout with Billy Shelton here one week from last night. Every young man army-bound should get his legs in shape. Bill Davis, private, Co. C. 9th Battalion, Camp Wheeler, in good shape, postcards us. He's from Union township.

Ziggy Sears, National league umpire, is home in Fort Worth, Texas, and ready to launch into defense work. . . . The unpredictable Alsab ran against Dark Discovery in the Gallant Fox handicap at Jamaica yesterday and finished second. The filly returned \$37.80 for each \$2 win ticket. Alsab was \$2.90 to place.

George Halas, owner-coach of the Chi-Bears will enter the Navy as a commissioned officer next week, according to Arch Ward, Chicago Tribune Sports Editor. . . . Sammy DeLuca, Cumberland, Md., duckpin ace, spilled 962 maples for an average of 192 per game, which set a new record at Cumberland.

Bill Evans, president of the Western Pennsylvania I.A.A. for the past 10 years and superintendent of Bradock schools since 1937, has been commissioned a captain in the U.S. Army. He will report at Fort Meade, Sunday. . . . Apples Meyers, boxing promoter of Pittsburgh, who was "killed off" by the depression, is back in the game.

FOR GOOD CAUSE
Whatever money the Chicago Black Hawks made in ice hockey this year will go to army and navy relief. The Chicago hockey crowds are the biggest in the National league.

Travel Will Not Affect Basketball Too Much, Wicht

PIAA Chief Predicts Overflow Crowd; Other Pennsy Sports Bits

By JOHN PAGET
(International News Service)
HARRISBURG, Oct. 22.—Basketball and the other school sports carded for the winter are not expected to suffer much from wartime transportation difficulties, Edmund Wicht, executive secretary of the Pennsylvania Interscholastic Athletic association, said today.

Pointing out that only 20 members of the 950-strong P. I. A. A. had dropped football prior to the opening of the season, Wicht predicted that crowds would overflow sports halls this winter when the season hits its stride. He added that despite tire and gasoline rationing, high school football is enjoying one of its biggest seasons.

However, with reports from Washington that all but essential travelers may be banned from using the railroads and possibly buses, there remained a possibility that basketball might suffer a serious blow if teams and spectators were unable to attend games by means of public conveyances.

Governor To Pitch
Paul Governor, Columbia university's dazzling forward passer, who almost defeated Pennsylvania last year single-handed with on-the-ball passes, will pit his aerial attack against the Red and Blue again Saturday when the two schools meet at Franklin field in Philadelphia for the 25th time.

Penn. which topped the Lions last year 16 to 14, was almost overwhelmed by Governor's passing attack which resulted in 12 bull-eyes out of 29 attempts for a total gain of 181 yards. Two of them connected for touchdowns. Opposing him will be Bert Stiff, backfield ace, who also can toss the ball with skill.

Colgate university, which opposes Penn State's Nittany Lions Saturday at State College, has had a spat with Asa S. Bushnell, executive director of the central office for Eastern Intercollegiate athletics. He took issue with a remark by Colgate President Everett Case, who said that football may not survive after this year because of the war. He told Case that any proposal to banish intercollegiate football at the end of the 1942 season constituted an "unsound policy on the part of those contemplating such action."

Case had written in a football program that "football as usual does not square with the war job colleges and universities have to do and for this reason the present season will be the last one for most participants until peace comes."

Odd Stuff
Odds and ends: Freshman Dick Smith, of Altoona, who paced the Dickinson college eleven to a 14-6 triumph over Washington and Jefferson last week, has enlisted in the army. . . . Temple University faces a stormy Friday night when its Owls meet the Cloudbusters from the Navy. Pre-flight school at North Carolina U. . . . Most of the service team varsity is from Fordham where Jim Crowley called the turns, only now it is Lt. Comr. James H. Crowley. . . . Dickinson college believes its Red Devils can halt the 17-game winning streak of Delaware University when the two clubs meet at Carlisle Saturday. . . . St. Vincent's eleven will attempt to keep its slate clean Friday when it goes against Indiana State Teachers.

Pitt U. Lineup Will Be Shaken For Duke Game

Injuries Bring About Shift In Plans; Grooming DiMatteo, Dutton

PITTSBURGH, Oct. 22.—There will be a few more changes in the Pitt lineup when the Panthers take the field against Duke's Blue Devils in the Pitt stadium this Saturday. This fact was in evidence as the Panthers went to work the first of the week.

Chief casualty right now and the most likely is Joe Salvucci, junior right tackle. Not hurt in the Indiana game, Salvucci came up with a recurrence of a back strain that bothered him early in his sophomore year.

In the backfield both Frank Saksa and Jackie Stetler, a pair of iron-men, are nursing injuries. Stetler has a strained tendon in his left ankle, and Saksa came out of the Hoosier battle with a bruised shoulder.

Preparing DiMatteo
The chances are that both may be able to start with Stetler the more likely. Just in case, however, Coach Charley Bowser is working Tony DiMatteo, hard-running sophomore, at both wingback and tailback, and also is giving Bill Dutton a shot at the wingback role, an old one for the Western senior.

Max Cebel, big junior, would move into the fullback position if Saksa should still be unable to go by Saturday. He started two games last fall, including the one with Duke. There are no other hurts to plague the coaches, but there are other changes in prospect. Fran Mattioli, rugged sophomore guard, has been bidding for a starting berth, and may get the call ahead of Bill Dutton.

PAIR OF FLEMINGS
Leslie Fleming pitches for the Cubs, and another Leslie Fleming plays first for Cleveland. The Chicago Fleming prefers the nickname of "Bill", which will serve to prevent a mixup.

Dark Discovery Wins Over Alsab

Winner, 18-1 shot, Nabs Jamaica Handicap; Shut Out Finishes Fourth

By JACK MAHON
(International News Service)
NEW YORK, Oct. 22.—With more than \$300,000 credited to his bank account and leading claim on the three-year-old title despite his defeat by the 18-1 shot Dark Discovery in yesterday's Gallant Fox Handicap at Jamaica, the fabulous Alsab today looked forward to the Pimlico Special and another meeting with his old rivals, Shut Out and Whirlaway. It is virtually certain the 'Sab will next be seen under silks at Pimlico, October 28, in the \$25,000 mile and three-sixteenths stake, one of the best of the fall season, but there is some doubt that Shut Out will go.

That setback yesterday, though suffered on a wet track which the son of Equipoise doesn't seem to favor, dropped his stock considerably and boosted Alsab into the leadership in the race for three-year-old honors.

Alsab Can't Miss
Off yesterday's race it would seem Alsab cannot miss taking home the three-year-old title. Carrying the special weight of 124 pounds, the son of Good Goods remained far off the pace for the winner, Dark Discovery, till they had about three-quarters of a mile to go, then rallied to come

within a length of the leader as they entered the stretch. Tiring under his top impost, Alsab couldn't make up that length in the drive down the stretch and Dark Discovery, a daughter of Discovery, Dark Loveliness with only 100 pounds and Jockey Warren Mehrtens Up went under the wire about a length to the good.

The winner, greatly overlooked in the betting by the crowd of 14,081 paid \$37.80, \$8.90 and \$4.10 across the board. Alsab which went off an even money favorite paid \$2.90 and \$2.40, while Marriage returned \$3.90 for third. Shut Out was fourth.

'Bill' McKechnie To Retire, Report

O'Neill To Pilot Tigers; Baker Will Manage Reds, Detroit Times Says

(International News Service)
DETROIT, Oct. 22.—Del Baker will be relieved of his duties as manager of the Detroit Tigers and be replaced by Steve O'Neill, a Tiger coach, and then be named as manager of the Cincinnati Reds, the Detroit Times said today.

The Times said that "this is the ward," today from an unquestioned baseball source. The Times continued: "It is understood that Bill McKechnie, present manager of the Reds, has informed his bosses he plans to retire. Baker is expected to be announced as the new manager soon."

Sports Ramblings

(Continued From Page Fourteen)

Penn State has not been defeated at State College since Lafayette upset 'em 7-0 in 1938. Carded to meet Colgate Saturday at home, how can the Lions win now that I've mentioned the record?

Johnny Niggeling was the night owl king of the American league

this season. The 37-year-old star triler of the St. Louis Browns was invincible at night. He won a half-dozen nocturnal decisions, without suffering a setback.

MISSSES TRAVEL
Eddie Cameron, Duke coach, probably has missed his fall traveling this year. In former years he scouted the Panthers, and turned up all over the country, in Seattle, Minneapolis, New York, Columbus, South Bend and Ann Arbor.

NEW MENTORS
Clark Shaughnessy at Maryland, Leroy Byham at Western Maryland, and Commander John Wheelchel at Navy are new head coaches.

FROM ME TO YOU

Because we used too many words some people thought that we were talking about our local farm extension people when we said yesterday that only that type of car drove more than 35 miles per hour on the highway. We didn't mean local people, we had reference to United States Government cars with the black and white license plates. If you accused the local people... we are sorry.

When the city and county people decide to get into a campaign, they really get in and do their stuff... The record made by citizens of this county just proves what kind of stuff they are made from. And they won't lie back and say that the job is done... They will keep right on gathering scrap iron and rubber... and in a very short time tin cans will be collected. Specific instructions will be published in this paper concerning tin cans and their care.

The school system informs us that War Stamps are being sold in all of the schools now and that only a very few schools lost any time in sales. Everyone who had power in the selling of stamps and bonds came to the aid of the school officials. Some even offered their private cars for the transportation of stamps and money to and from the schools... there again shows you how the people cooperate when they know the truth about a situation. Now the school boys and girls will go on selling War Stamps and what a job they will do... Watch them set a record for the United States.

If all the people would cooperate like the people in this county, there would be no need of special rationing of vital items... there would be no need to put on special taxes... but everyone must cooperate... Buying War Stamps and Bonds, turning in old scrap iron and rubber... driving less and less. Eating proper foods and not hoarding coffee and other scarce items. Let's do right now.

If you would call 170-M you might be in time for a nice little fox terrier puppy. Give it a good home and it's yours for the asking.

TAKE TIME TO READ THE CLASSIFIED AD PAGE TODAY... THERE JUST MIGHT BE SOMETHING HERE THAT YOU WILL WANT TO BUY OR SELL... A MOMENT NOW MIGHT SAVE YOU CASH!

Young Mother's Place Home, Not War Plant

By JEAN CRAIGHEAD
(N. S. Staff Correspondent)

WASHINGTON, Oct. 22.—The labor department today said that regardless of the demand for women in war industries, the young mother's place is still in the home.

The demand for 5,000,000 more women in war jobs by the end of 1943, has left the women's bureau of the labor department faced with the problem of combating the patriotic desire of young mothers to help the nation.

More than 13,000,000 women are estimated at work in the United States, with some 3½ to 4½ million engaged in war employment.

"Before women will be drawn from the homes," Mary Anderson, director of the women's bureau said, "A canvass of women over 35 will be made to determine their possible use in industry."

Somewhat balancing the demand for women in bomber plants, and other industries, is the surplus of labor thrown onto the market by civilian industries that have closed down.

Nevertheless employment is spotty. Two-thirds of the new needs for workers in late 1941 was in only five of the more important industrial states, and some housewives have had to go to work.

For these women, war manpower commission programs have brought daytime care to their young families. Women are also reminded that in leaving their homes to take war jobs they are creating others behind them. Most of them have found it necessary to hire maids, cooks and laundresses in order to keep the house running smoothly in their absences.

AROUND CITY HALL

Bees have diseases but humans are not heir to them according to Professor E. F. Phillips, department of Entomology, New York State College of Agriculture. He said that bees will prove no nuisance to anyone if they are located right. In these days of sugar rationing it is advantageous to have bees the professor stated. The information was sent recently to Dr. W. A. Womer, city health officer. Phillips knows all about bees. There are several persons here who have been given permission to keep them, despite a complaint recently bees had stung to death a dog in the North Hill section.

SUFFERS FOOT INJURIES
Marion Audia, aged 21 years, of R. F. D. No. 5, suffered injuries of both feet, when a hopper car got loose and went down over a hill at the plant of the Superior Sand and Gravel Co. at East Brook, Wednesday afternoon. He was treated at the Jameson Memorial hospital.

Christian Endeavor Convention Saturday

At the First Christian church on the Diamond, the High School Christian Endeavor group of the Lawrence County Christian Endeavor Union will have their fall convention on Saturday, October 24.

The convention will commence at 3 in the afternoon with a period of recreation, and will be followed by a call to worship at 3:45 which will be led by the Central Christian church society.

At 4:15, two conferences will be held, the leaders being Rev. Oliver W. Hurst of the First Baptist church and Rev. Clyde Roland of the Madison Avenue Christian church.

A banquet will be served at 6 o'clock in the church dining room. Following the banquet, the group will enjoy motion pictures of England and Texas, taken by Rev. Sidney K. Bliss, of Central Christian church.

Note on cooperation: Factory effort is doubled because the army and navy won't use the same training plane.

OCD NOTES

Activities Of O. C. D. Workers Are Outlined In This Column

LIUTENANT IN CHARGE

Lieutenant Saldman, instructor for bomb reconnaissance agents in the Third Civilian Defense system is in charge of the meetings today and Friday in the Cathedral. Agents from industry, utilities, fire and police bodies are in attendance.

SEEKING MORE HELP

Frank Gribben of the Second precinct of the First ward has approximately 20 OCD workers. However, he would appreciate twice that many. Those who desire to do their bit should be present when a meeting will be conducted tonight in the basement of St. Mary's church.

IT IS IMPORTANT

Relative to the appeal for more OCD workers not only in the city and the county people should remember that every huge piece of machinery requires cogs. Without cogs no machine can operate efficiently. The OCD workers, are the cogs, in civilian defense.

WILL CARRY PENNANTS

Lawrence county is entitled to more than 1,000 pennants for cars. The pennants will replace E signs. However, no person will be able to carry on his or her car unless approved by the County OCD Director, L. B. Round. Pennants are not issued through the city OCD office.

NEW CLASS UNDER WAY

A new class of auxiliary firemen has been started with William Bowen as instructor. The class was formed at the Central fire department, Monday. All meeting will be conducted at that place every Monday evening. It was announced.

MUST RE-INSTALL SWITCHES

An inspection has shown that some black-out switches were not installed properly hence a re-installation must be made. It was reported they had switches which permitted the turning on of lights on the outside of the buildings. This type will not be approved, OCD officials report.

ARRANGING FOR SHELTERS

Frank Sargent, C.A.R.W., reported today he is arranging for air raid shelters in the downtown district. The first is Murphy company in Washington street. It has a concrete and steel roof, strong enough for additional stories and a bomb proof basement.

TO GIVE EXHIBITION

William Bowen will be in charge of tonight's session at the Central fire department. He will show and explain how incendiary bombs can be extinguished. The session will start at 8 o'clock.

FOLLOW THE SIGNS

"In case of an air raid follow the signs," said Frank Sargent today. He gave this advice today after

stating he is arranging for downtown air raid shelters. The signs will be placed on sidewalks and will point to the nearest air raid shelter.

CAN USE STADIUM

Among the air raid shelters will be the Taggart stadium tunnel. It will be used by the students in the trade school. Frank Sargent, C.A.R.W., reported that during the recent air raid alert it was used. Teachers will keep other students in their schoolrooms safe as possible from bombs.

SIGNS SHOW CO-OPERATION

It may not be long until some business houses in different sections post signs "Air Raid Precautions Taken Here" on front windows. After the arrangements have been completed, OCD officials will inspect the arrangement and if found satisfactory, will issue the signs.

ON ALERT

Members of the OCD force are on their toes. Having just gone through a practice air raid alert they are now looking forward to a surprise black-out. It was reported recently from Harrisburg that the black-out would come this month.

CERTAIN RESTRICTIONS

A letter from the state OCD reports that when there is no other way of alarming a rural district for an air raid or black-out, air raid wardens or other bonafide OCD's may use a siren or whistle on their auto. The letter was received by W. R. Walton, chairman, of the county defense office.

INSTALLING SIRENS

City Electrician Rex Hughes yesterday commenced the installation of the first of six sirens which city council purchased Tuesday. Installations for the other five will also be made. There will be a siren on top of each fire-house and possibly some privately-owned buildings.

GRADUATE STUDENTS

Approximately a dozen air raid wardens, fire-watchers and messengers graduated in the Lawrence school district, Tuesday night. Following the exercises which were conducted in a building at Swansea avenue and Cedar street the graduates were honored at a luncheon.

HAVE REACHED DECISION

Each precinct in the city OCD will receive slightly more than \$900, as its share of the \$400,000 raised when a boxing show and bomb display was held at Taggart stadium in July. Other OCD divisions also have received their allotments and now it is up to each to get OCD equipment.

HERE ARE TIPS

Don't let anyone tell you OCD work is not vital. Refuse to be a party to spreading rumors. Keep your eyes and ears open day and night and your mouth shut.—there may be a stranger in the house! Don't tell the name of your son's outfit if overseas or what kind of a defense machine you are helping manufacture.

MAKE USE OF SHARE

Rescue squad met last night in Central fire department and decided to spend their allotment received from the boxing show for OCD equipment. They plan to secure electric lanterns and blankets for the squad car. They also decided to hold meetings the third Wednesday of each month at Central.

PARK AVE. AUXILIARY

Park Avenue Auxiliary firemen had a regular meeting in the fire station Wednesday evening. Plans were outlined at this time for a special meeting which will take place next Wednesday evening at 8 o'clock at the Park avenue fire station. At this meeting, a special speaker will be present to give further instruction in fire fighting methods. An overtime crew will be a feature at the close of the session.

FURTHER TRAINING FOR FIRST AIDERS

Harry J. Cullford, director, first aid, Lawrence County Chapter, American Red Cross, announces that, for people who have had their gas training but have not completed their basic OCD course, there will be a meeting in the court house next Sunday afternoon at 2:30. This will be the last meeting so it is urgent that those needing this training for their cards be present.

Quintuplets Use Musterole For Chest Colds!

To Relieve Their Coughing and Make Breathing Easier

Whenever the Dionne Quintuplets catch cold—their chests, throats and backs are immediately rubbed with Musterole—a product made especially to promptly relieve coughing and tight sore aching chest muscles due to colds—it actually helps break up local congestion in the upper bronchial tract, nose and throat.

Musterole gives such wonderful results because it's what so many Doctors and Nurses call a modern counter-irritant. Since it's used on the famous "Quints" you can be sure it's just about the BEST cold relief you can buy!

Convocation At Westfield Church

Three Sessions Planned For Presbyterian Meeting On Tuesday, October 27

Local Presbyterians are deeply interested in the Missionary Convocation that is to be held in Westfield Presbyterian church, near Mt. Jackson, Tuesday, October 27.

There will be three sessions as follows: First, a panel discussion of foreign work under the direction of Drs. Wiser, Dodds and Leber, beginning at 3 o'clock and closing at 5 o'clock; second session will be held at the supper table at 6:30 with an address by Dr. Charles T. Leber of New York City. Dr. Leber spoke to audiences of 2,000 at his devotional hours at Chattanooga last summer. His last address there was in the Hall of Philosophy which was crowded while thousands stood outside the hall to hear. He then left to meet the Gripsholm which was coming into New York harbor with the expelled missionaries from Japanese controlled countries.

Reservations for the supper must be sent to Mrs. Harry Reed or Mrs. Wylie Brewster of Mt. Jackson in good season to enable the ladies of the church to make preparations for the supper.

Promising Report Given War Council

President Roosevelt Presents War Production Picture, Situation In Solomons

(International News Service)

WASHINGTON, Oct. 22.—President Roosevelt gave the Pacific war council a report on war production Wednesday for September and October which its members termed "quite promising and quite encouraging."

Mr. Roosevelt reported to the council on the situation in the Solomons islands, but in the opinion of the United Nations representatives at the meeting the "best development" was Mr. Roosevelt's production survey report. This, according to Walter Nash, minister from New Zealand, covered not only production in the United States but also the United Kingdom.

The meeting was largely taken up, however, by the war council and Mr. Roosevelt listening to a radio broadcast speech by General Jan Christian Smuts, prime minister of South Africa, who was speaking before both houses of parliament in London.

On the production report, Lord Halifax, the British ambassador had this comment: "I thought the general picture was quite promising—quite encouraging."

Nash said the "full analysis" which Mr. Roosevelt gave the council members on the South Pacific war situation "looks just like it does in the papers."

Beamish Backs Lower Age Vote

P. U. C. Man Tells Vandenberg Pennsylvania Ready To Endorse Proposal

(International News Service)

HARRISBURG, Oct. 22.—Public Utility Commissioner Richard J. Beamish informed U. S. Senator Arthur H. Vandenberg (R., Mich.) on Wednesday that he believed Pennsylvania "is ready to endorse formally" the senator's proposed constitutional amendment to lower the voting age to 18 years.

"This matter has received extensive publicity through the newspapers in Pennsylvania," he pointed out. "This commonwealth, I believe, is ready to endorse formally the amendment proposed by you."

Beamish wrote Vandenberg that "for 15 years I have advocated the lowering of the voting age because I knew that, in a condition of total war, boys of eighteen would be drafted."

Nazarene Church Revival Continues

Increasing interest is being shown in the revival meetings at the Church of the Nazarene where Evangelist W. G. Heslop is preaching each evening at 7:30 o'clock.

Mrs. Heslop will be in charge of the congregational singing at this evening's service.

Another service will be held Friday evening, but there will not be a service Saturday evening.

Sunday morning at 9:30 o'clock, Mrs. Heslop will speak to the Sunday school and will give a book mark to the child who can tell which song she sings in the Japanese language. She will also give a large sheet of choruses to each visitor. Mrs. Heslop will speak again Sunday at 6:30 p. m. to the N. Y. P. society.

School Teacher Is Killed In Action

(International News Service)

PHILADELPHIA, Oct. 22.—Lieut. James W. Weintraub, 27-year-old marine corps dive bomber flier, is the first Philadelphia public school teacher to be killed in action since Pearl Harbor.

Details of his death, believed to have occurred in the southwest Pacific, were not given in the message received Wednesday by his sister, Miss Elizabeth Weintraub.

He was formerly a teacher at the Houston public school in German-town.
